Kowa Portable Slit Lamps are Now LEDs!

- **20,000 lux white LED source**

Illumination is thumb wheel controlled and illuminated for easy viewing in a darkened room.

- **Powered by AAA batteries**

Kowa Portable Slit Lamp SL-17 use the following commercially available batteries:
AAA rechargeable batteries
AAA dry cell batteries
(Except manganese dry cell batteries)

- **Anti-tip design**

New circular base increases slit lamp stability, providing a safer place to store the instrument.

- **Digital image support**

Optional camera adapter with diffuser and yellow filter are available which allows documentation of anterior segment through image and video capture.
